Northern	20	32

**SUMMARY:** Variably cloudy weather is anticipated for most parts of the country this morning with chances of rain affecting the coastline, forest areas and some portions of the northern sector. Early morning mist or fog patches will form over the forest and mountainous zones of the country. As the day progresses, there will be mostly cloudy conditions with sunny breaks across sectors. However, thunderstorms or rain are expected over the southern half and parts of the northern sector of the country from the afternoon into the evening.
