SUB-SEASONAL TO SEASONAL FORECAST IN GHANA

Advisory

- Farmers are advised to take necessary precautions against waterlogged fields due to expected rainfall. Ensure proper drainage in fields to prevent crop damage.
- Livestock owners should ensure that animals have adequate shelter and warmth during the colder temperatures and rainfall.
- With below-normal temperatures expected in most parts of the country, we urge residents to dress appropriately especially in the evenings to prevent cold-related illnesses.
- The general public is encouraged to stay informed by following daily weather updates from the Agency.
